By Sangjoon Lee

In *Because2024*, Sangjoon Lee takes a hard look at the future of humanity and the challenges and opportunities that lie ahead. He argues that we are on the cusp of a new era, one that will be defined by unprecedented technological advancements and global interconnectedness. But he also warns that this new era will also be fraught with challenges, including climate change, inequality, and the rise of artificial intelligence.

Lee draws on his extensive experience as a technology executive and futurist to paint a vivid picture of what the future holds. He discusses the potential benefits of new technologies, such as artificial intelligence, blockchain, and renewable energy. But he also warns of the potential risks of these technologies, such as job displacement, surveillance, and the erosion of privacy.

Ultimately, Lee argues that the future of humanity is not predetermined. It is up to us to shape the future we want. He calls for a new era of global cooperation and collaboration to address the challenges of the 21st century. He also calls for a new focus on education and lifelong learning to prepare us for the jobs of the future.

Because2024 is a must-read for anyone who is interested in the future of humanity. It is a thought-provoking and inspiring book that will challenge your assumptions and give you a new perspective on the world.

About the Author

Sangjoon Lee is a technology executive and futurist. He is the founder and CEO of the AI company, Cerebras. He is also a member of the World Economic Forum's Global Future Council on Artificial Intelligence and Robotics.

Reviews

"Because2024 is a brilliant and thought-provoking book that will change the way you think about the future. Lee offers a unique perspective on the challenges and opportunities that lie ahead, and he provides a roadmap for how we can create a better future for all."

- Klaus Schwab, Founder and Executive Chairman, World Economic Forum

"Sangjoon Lee is one of the most insightful thinkers on the future of humanity. In Because2024, he provides a clear and concise roadmap for how we can navigate the challenges and opportunities of the 21st century."

- Yuval Noah Harari, author of Sapiens and Homo Deus
