

Design Computing and Cognition '20: 20th International Conference on Design Computing and Cognition

The 20th International Conference on Design Computing and Cognition (DCC'20) will be held in Atlanta, Georgia, USA, from June 14-17, 2020. DCC'20 is a leading international conference that brings together researchers and practitioners from a wide range of disciplines, including design, computing, cognitive science, and engineering.

Design Computing and Cognition'20 by John S. Gero

The conference will feature a variety of keynote speakers, workshops, and paper presentations. The keynote speakers will include:

- Dr. John Gero, University of Sydney, Australia
- Dr. Ashok Goel, Georgia Institute of Technology, USA
- Dr. Wendy Kellogg, University of California, Berkeley, USA

The workshops will cover a variety of topics, including:

- Design thinking
- Computational creativity
- Human-computer interaction
- Design education

The paper presentations will cover a wide range of topics, including:

- Design theory
- Design methods
- Design tools
- Design evaluation

DCC'20 is a must-attend event for anyone interested in the latest research in design computing and cognition. The conference will provide a unique opportunity to learn from leading researchers and practitioners, and to network with other professionals in the field.

To register for the conference, please visit the DCC'20 website.

About the Author

Dr. John Gero is a leading researcher in the field of design computing. He is a Professor of Computer Science at the University of Sydney, Australia. Dr. Gero has published over 500 papers in the field of design computing, and he is the author of several books, including "Design Computing and Cognition" (1990) and "Design Thinking" (2014).

Dr. Gero is a Fellow of the Association for Computing Machinery (ACM) and the American Association for Artificial Intelligence (AAAI). He is also a member of the Royal Society of New South Wales. Dr. Gero has received numerous awards for his research, including the ACM SIGGRAPH Distinguished Artist Award for Lifetime Achievement in Digital Art (2014).

About the Book

Design Computing and Cognition '20 is the proceedings of the 20th International Conference on Design Computing and Cognition. The book contains over 100 papers that cover a wide range of topics in the field of design computing and cognition. The papers are organized into the following sections:

- Design theory
- Design methods
- Design tools
- Design evaluation
- Design education

Design Computing and Cognition '20 is a valuable resource for researchers and practitioners in the field of design computing and cognition. The book provides a comprehensive overview of the latest research in the field, and it provides a unique opportunity to learn from leading researchers and practitioners.

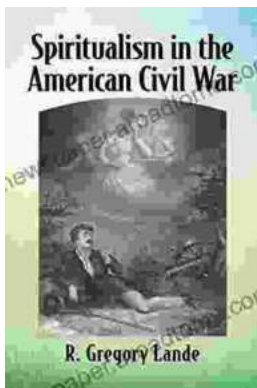

To Free Download a copy of the book, please visit the DCC'20 website.
