

# Street Furniture: Everyday Urban Design by Peter Eley

Street furniture is an essential part of our urban landscape. It provides places to sit, rest, eat, and play. It can also be used to create a sense of

place, to define spaces, and to control traffic. In short, street furniture is a vital part of making our cities livable and enjoyable.

In his new book, *Street Furniture: Everyday Urban Design*, acclaimed architectural and design writer Peter Eley takes a close look at this often-overlooked aspect of our urban environment. Eley examines the history, design, and function of street furniture from around the world, from the simple bench to the elaborate fountain. He also explores the role that street furniture plays in shaping our cities and in creating a sense of community.
