In the tapestry of American literature, the voices of Indigenous peoples have long been marginalized and silenced. However, a resurgence of scholarship in recent years has brought renewed attention to the vibrant and complex realm of American Indian rhetorics. "Survivance, Sovereignty, and Story: Teaching American Indian Rhetorics" is a groundbreaking text that explores the rich cultural traditions and storytelling practices that shape Indigenous voices.

## Survivance and Sovereignty

The concept of survivance, coined by the renowned scholar Gerald Vizenor, captures the resilience and persistence of Indigenous peoples in the face of centuries of colonization and oppression. This resilience is reflected in the storytelling practices that serve as a repository of cultural knowledge and a means of transmitting values and beliefs from generation

to generation. Sovereignty, on the other hand, refers to the inherent right of Indigenous nations to govern themselves and exercise control over their lands, resources, and destinies.

## **Storytelling as Resistance**

Indigenous storytelling has long been a form of resistance against dominant narratives that have sought to erase or misrepresent Indigenous cultures. Through storytelling, Indigenous peoples reclaim their voices and assert their presence in the world. Stories become a powerful tool for challenging stereotypes, reclaiming history, and fostering cultural renewal.
